Title: Corporate HSSE Policy			

OIL SPILL RESPONSE LIMITED

Oil Spill Response Limited strives to create a workplace where accidents do not occur, where no one is exposed to health hazards and where personal security is not compromised. Furthermore, **Oil Spill Response** endeavours to protect the environment by working to minimise the impact of its activities.

Oil Spill Response's Mission and Charter set out the requirements to deliver efficient and effective response underpinned by high quality preparedness services.

In order to achieve the above **Oil Spill Response** operates an integrated company management system based on the requirements of BS EN ISO 9001:2008, ISO 14001:2004 and OHSAS18001:2007.

Oil Spill Response's key commitments are to:

- Provide the appropriate resources and training required to undertake our operations to high Health, Safety, Security and Environmental standards (HSSE).
- Assess HSSE risks and take appropriate actions as part of our normal business to prevent injury or ill health.
- Ensure that everyone is accountable for the actions they take to ensure their own health & safety and that of those around them.
- To meet all relevant measures as set out in the Service Level Agreement (SLA) for spill response activities.
- Comply with all applicable HSSE and other legislation, regulations and industry best practice.
- Produce and monitor annual objectives, targets and measures designed to ensure continual improvement in health, safety, environment and business delivery.
- Regularly check that our Management Systems are working effectively and making changes where appropriate.
- Ensure a culture of open consulting and communication between all staff, contractors and stakeholders at all levels on HSSE and business quality issues.
