

CLEARANCE COURSE

SCLR 08 | 1 - 5 February 2010 | Singapore

Course objectives

To provide delegates with the skills and knowledge to perform the role of On-Scene Commander or have a functional role within tactical response teams of an Incident Command System, in both marine and inland response duties.

Closing date for course registration: 22nd January 2010

Our flagship Oil Spill Clearance Course adopts a more functional approach using competence based training where delegates learn, apply and remember through syndicate exercises and practical training.

Topics covered

- ◆ Three practical exercises: inland offshore and shoreline
- ◆ Causes and fates of spills
- ◆ Environmental issues
- ◆ Contingency planning and the use of IT
- ◆ Health and Safety
- ◆ **Oil Spill Response** capability
- ◆ Dispersants
- ◆ Containment, recovery and protection
- ◆ Shoreline clean-up
- ◆ Waste handling
- ◆ Tactical management
- ◆ Introduction to inland spills
- ◆ Termination of a response
- ◆ Dealing with the media (External speaker)
- ◆ Government organisations

Who should attend?

- ◆ Staff with responsibilities within the incident command team with a focus on tactical operations, logistics, safety or environmental support
- ◆ Managers or Supervisors who will lead or supervise tactical response teams
- ◆ Those who may be part of a general emergency team that would have to support an oil spill response effort, but currently inexperienced in oil spill response

You will be able to:

- ◆ Oversee and ensure safe spill response operations
- ◆ Interpret oil characteristics and know how these influence a response
- ◆ Complete a full initial assessment of an oil spill
- ◆ Perform the initial actions needed in an oil spill event

If taking the OPITO Assessment Option:

- ◆ Prove competence to perform the role of On-Scene Commander

OPITO ASSESSMENT OPTION

Choosing the OPITO Assessment gives you the chance to be assessed by our accredited trainers and be recognised for the competence you demonstrate. Delegates who pass the Option will be awarded a certificate of competence measured against **Oil Spill Response's** occupational standard for On-Scene Commander and recognised by OPITO, in addition to the usual attendance certificate.
