

SCALE OF FEES 2023

The response hire rates for 2023 are quoted in:
GB Pounds (£) for all equipment, unless stated otherwise.

US Dollars (\$) for our Boeing 727 and Hercules services.

Rates quoted are for oil spill response operations initiated under the terms of the Participant Member and Associate Member Agreements.

Non-members are not guaranteed a response and will be required to sign a Non-member agreement.

DISPERSANT APPLICATION

Neat Sweep dispersant boom system	3	1	2	0	0	£71,549	£598	£1,195	£1,195	£2,390
Boat Spray sets for use as vessel mounted Type 3 dispersant application system	30	12	10	4	4	£7,332	£21	£41	£41	£82
Boat Spray 200 sets	0					£19,596	£55	£109	£109	£218
Fluorometer for dispersant application analysis (Spill Response Specialist required)	7	4	2	0	1	£27,555	£159	£317	£317	£634
Dispersant effectiveness test kit	11	4	3	2	2	£250	n/a	n/a	n/a	n/a
Oil Sampling kit	4	1	1	1	1	£245	n/a	n/a	n/a	n/a

Dispersant effectiveness test kit and oil sampling kit all charged at replacement cost

Chemical dispersant will be charged at replacement purchase cost plus all procurement fees. Non-members will be charged a fee of £2,500 for access to dispersant stocks and an additional 15% surcharge on all invoiced costs.

AIRCRAFT SYSTEMS

Underslung helicopter mounted spray system (150-240 gallons) (helicopter not included) *	6	4	0	2	0	£27,684	£154	£308	£308	£616
--	---	---	---	---	---	---------	------	------	------	------

* OSRL accepts no liability whatsoever in respect of its operation. The aircraft operator must satisfy himself of the suitability of the equipment to the aircraft and have the necessary operations manual to permit its use.

AIRCRAFT

BOEING 727 - ALL FEES ARE IN US DOLLARS	1	1	0	0	0					
Response flights - applicable on days where flights are carried out - charged on hourly basis (excluding fuel). Subject to a minimum charge of the daily *Standby fee						PER HOUR		\$ 8,500.00		\$ 17,000.00
*Standby fee - applicable on days where flights are not carried out - charged on daily basis						PER DAY	\$ 9,250.00		\$ 18,500.00	
Training/demonstration flights - only available to Members	As incurred at direct cost									

Direct operating costs will be charged as incurred to Members including but not limited to fuel and any handling charges. Non-members will be charged an additional 15% administration fee to these direct operating costs.

The above rates apply in respect of 'normal' response operations where the aircraft is deployed and utilised for up to a maximum of 10 days. Daily charges for non flying standby periods of greater than 10 days duration where the aircraft flies on average for less than 2 hours per day during that period will be charged at \$17,000 per day and will require special consideration. Additional requirements may be placed on users in these cases. This option is only available to Members.

GENERAL TERMS AND CONDITIONS FOR EQUIPMENT USE IN RESPONSE INCIDENTS

DEFINITIONS

Affiliate: Means any company, which is owned by, which owns, or is under common ownership with a company. For this purpose “ownership” may be direct or indirect; direct ownership being through holding fifty per cent (50%) or more of the shares carrying rights to vote at a general meeting of the company (or its equivalent) or holding ordinary shares carrying a majority of votes at a general meeting (or its equivalent) of the company and indirect ownership being through a series of companies each being directly owned by one or (by aggregate shareholdings) more of the previous companies in the series.

Base: Means any of the Company’s operating bases for example; Southampton (UK), Bahrain, Singapore or Fort Lauderdale (USA).

Company: Means Oil Spill Response Limited including any of its Affiliates.

Daily “In Use”: Means any period during which equipment is in use and not in transit or on standby. Once “In Use” the equipment will continue to be charged at this rate until it is taken out of use, and placed back “on standby”, is purchased*, or is transiting back to the OSRL base.

Daily “On Standby”: Means any period during which the equipment is in transit or on standby.

Length of day (equipment): Means in any one day where equipment is part of the time “In Use” and part of the time “On Standby” then in respect of that day the higher rate shall apply. The length of day with respect to equipment is a 24 hour period.

Length of working day (personnel): The Company promotes safe working practices and must ensure the safety and welfare of its personnel. The duration of the working day is therefore carefully managed on a case-by-case basis. Should working time be required to exceed 10 hours, the Company’s management will work with the client to put in place measures which minimise any risk to personnel while

maintaining the overall effectiveness of the response effort.

Period of hire: Means the time from which the equipment leaves the Base until it is returned to the same base or to any alternative location as may be agreed by Company.

TERMS AND CONDITIONS

Administration fee: A 15% fee will be charged to Non-members on all third party costs including but not limited to consumables, chemical dispersant replacement cost, aviation charter costs and direct operating costs for aviation activities. Where applicable, an administration fee of 15% will be charged to Members in the event that third party contractors are used in the event of an incident.

Aircraft charter: In the event that a chartered aircraft is required this can be organised through a dedicated broker. Payment from Members is due within 15 days. Non-members may be required to pay in advance and rates will be subject to a 15% administration fee.

Aircraft Insurance: All aircraft contracted by the Company for use in aerial surveillance and dispersant spraying activities are insured by the service provider. However, if any additional premium is payable due to the nature of a specific operation this will be recharged to the mobilising party.

Cap on hire charges (Members only): Hire charges for OSRL Members and Non-members will be capped at twice the replacement cost of the equipment. However, the rehabilitation, repair, and maintenance costs will continue to be charged in the normal way at the end of the period of hire.

*Option to purchase: Once the capped value has been reached there may be an option to purchase the equipment at replacement cost, terms for which will be agreed at the time.

Chemical Dispersant: Chemical dispersant will be charged at replacement purchase price plus all

procurement costs. Non-members will be charged a fee of £2,500 for access to dispersant stocks plus a 15% administration fee. The hire of dispersant in support of projects is only available to Members.

Consumables: All consumables will be charged at replacement cost. Non-members will also be charged a 15% administration fee.

Deployment of Equipment: All equipment supplied by the Company will be accompanied by an appropriate number of Company personnel for the duration of its deployment.

Hercules and Boeing 727 Aircraft: The aircraft are available for wide area dispersant spraying operations globally. The quoted rates apply in respect of ‘normal’ response operations where the aircraft are deployed and utilised in response operations for up to a maximum of 10 days. All direct costs will be recharged to the mobilising party and an additional administration fee of 15% will be levied on Non-members.

Daily charges for non flying standby periods of greater than 10 days duration where the aircraft flies on average for less than 2 hours during the period will be charged at \$17,000 per day and will require special approval. In the event of a prolonged deployment, the mobilising party must pay for sufficient flying hours and direct operating costs to ensure crew currency and aircraft reliability are maintained. In addition, the mobilising party may be charged if a replacement aircraft is required to cover other operational/contractual commitments which are reliant on the availability of the aircraft. This option is only available to Members.

Oil Spill Modelling: Fees for oil spill modelling are based on the assumption that the Company is provided with all necessary maps and relevant information (including but not limited to weather, currents, etc) by the client on a timely basis.

Invoicing: Invoices will be issued weekly.

Payment: The Company shall not be deemed to

have received payment until the correct sums are credited for value to Company’s nominated account. The Company reserves the right to request payment of funds in advance, at a level to be determined, on a case-by-case basis in the event of a mobilisation.

Late payment charges will be levied on amounts not received within 30 days (or agreed terms) of sending Company’s invoice. Payments still outstanding after 30 days shall bear interest at 3% above the HSBC Bank plc, London base rate current from time to time during the period in question until payment is received.

Rates: The rates contained in this Scale of Fees apply solely to response incidents. Rates for all other services are available on request.

Rehabilitation of equipment: The costs of cleaning and rehabilitating the equipment will be invoiced following completion of the rehabilitation and will include all materials, services and manpower costs.

Taxation: All rates are shown are net of all taxes including, but not limited to, withholding tax and royalties. If any deduction or withholding in respect of tax or otherwise is required by law to be made from any payment the invoice will be revised accordingly so that, after such deduction or withholding is made, the payment received is for the same amount as it would have been in the absence of any requirement to make such a reduction or withholding.

DISCLAIMER

The above Terms and Conditions are provided for reference purposes only and are not comprehensive. For a copy of the full Terms and Conditions please refer to the relevant contract for Members or Non-members.
