

# SCALE OF FEES 2019

The response hire rates for 2019 are quoted in:

**GB Pounds (£)** for all for all equipment, unless stated otherwise.

**US Dollars (\$)** for our Boeing 727, Hercules and WACAF services.

Rates quoted are for oil spill response operations initiated under the terms of the Participant Member and Associate Member Agreements.

**Non-members are not guaranteed a response and will be required to sign a Non-member agreement. Rates are twice as much and services differ from our Members.**

	TOTAL QUANTITY	UNITED KINGDOM	SINGAPORE	BAHRAIN	FORT LAUDERDALE	INSURANCE VALUE	MEMBER DAILY STANDBY	MEMBER DAILY IN-USE
<b>DISPERSANT APPLICATION</b>								
Neat Sweep dispersant boom system	3	1	2			£65,033.00	£542.00	£1,084.00
Boat Spray sets for use as vessel mounted Type 3 dispersant application system	25	10	10	2	3	£7,420.00	£35.00	£70.00
Fluorometer for dispersant application analysis (Spill Response Specialist required)	8	4	3		1	£14,010.00	£117.00	£234.00
Dispersant Eductor spray system	1				1	£3,393.00	£9.50	£19.00
Dispersant transfer system (metered)	2				2	£25,909.00	£72.00	£144.00
Dispersant transfer system (metered)	2				2	£25,909.00	£72.00	£144.00
Dispersant effectiveness test kit	2	2				£250.00		
Oil Sampling kit	4	4				£245.00		

Dispersant effectiveness test kit and oil sampling kit all charged at replacement cost

Chemical dispersant will be charged at replacement purchase cost plus all procurement fees. Non-members will be charged a fee of £2,500 for access to dispersant stocks and an additional 15% surcharge on all invoiced costs.

## AIRCRAFT SYSTEMS

Underslung helicopter mounted spray system (150-240 gallons) (helicopter not included) *	5	2		2	1	£20,873.00	£58.00	£116.00
* OSRL warrants the condition of this equipment but accepts no liability whatsoever in respect of its operation. The aircraft operator must satisfy himself of the suitability of the equipment to the aircraft and have the necessary operations manual to permit its use.								
Cargo Slave Pallet	2				2	£3,116.00	£37.50	£75.00

## AIRCRAFT

<b>BOEING 727 - ALL FEES ARE IN US DOLLARS</b>	1	1						
Response flights - applicable on days where flights are carried out - charged on hourly basis (excluding fuel). Subject to a minimum charge of the daily *Standby fee								\$8,500 per hour
*Standby fee - applicable on days where flights are not carried out - charged on daily basis							\$9,250 per day	

Training/demonstration flights - only available to Members

As incurred at direct cost

Direct operating costs will be charged as incurred to Members including but not limited to fuel and any handling charges. Non-members will be charged an additional 15% administration fee to these direct operating costs.

The above rates apply in respect of 'normal' response operations where the aircraft is deployed and utilised for up to a maximum of 10 days. Daily charges for non flying standby periods of greater than 10 days duration where the aircraft flies on average for less than 2 hours per day during that period will be charged at \$17,000 per day and will require special consideration. Additional requirements may be placed on users in these cases. This option is only available to Members.

### WEST AFRICAN DISPERSANT SERVICE - MEMBERS ONLY - NOTE ALL FEES ARE IN US DOLLARS

The WACAF contract comes to an end on the 31st December 2018. Negotiations are currently underway with the WACAF subscribers and potential operators. There will likely be a gap in service. At the time of publication of the scale of fees, block hour rates and daily standby fees are to be confirmed. This will be circulated to the subscribers as part of the membership subscription process and the scale of fees updated once confirmed.

Aircraft type Unknown	1		West Africa					
<b>Aerial Surveillance service</b>								
Scrambling fee								TBC
Block hour flying fee (plus any direct operating costs)								TBC
Daily standby fee							TBC	
<b>Training flights</b>								
Scrambling fee								TBC
Block hour flying fee (plus any direct operating costs)								TBC
Daily standby fee							TBC	

### UKCS AERIAL SERVICES - MEMBERS ONLY

If the aircraft are placed on prepositioned Standby then there maybe a charge.  
In the event of multiple response requirements, priorities will be agreed in consultation with OSRL and the operators.

<b>Aerial Surveillance service</b>								
Surveillance aircraft c/w infra red and digital video	1	1						
PA-31 Navajo - Block hour flying fee including fuel (plus any direct operating costs + 10% handling fee)			Doncaster					£595.00
Daily standby fee - Only charged if less than 1 block hour							£3,000.00

Air Monitor Microdust Pro	4	3	1			£4,000.00	£33.00	£66.00

### OIL TRACKING

Oil Spill Tracking Buoy - I-Sphere	1	1				£2,926.00	£49.00	£98.00
Oil Spill Tracking Buoy - ISMDB	2	2				£2,022.00	£46.00	

Tracking costs will be charged and the unit will be replaced at cost if used.

Satellite imagery can be purchased for Members as and when required. The cost, type and frequency of the images will depend on the location and the particular requirements for the incident.

Satellite Oil Detection Anomaly Report and Image							\$6,825 per image	
Target Detection (vessel tracking) on above							\$525 per image	

### OIL SPILL MODELLING

2D Trajectory & backtrack								£440.00
3D Trajectory								£970.00

Day-rate charges do not include the purchase of any additional environmental data.

### PERSONNEL

Director								£960.00
Senior Oil Spill Response Manager (Incident Manager)								£575.00
Oil Spill Response Manager (Duty / Response Manager)								£545.00
Oil Spill Response Specialist / Responder								£450.00
Logistics Service Branch coordinator (Duty Administrator)								£330.00

OSRL uses an ICS (Incident Command Structure) during a response to provide continuous communications with the customer and to ensure efficient deployment of resources.

For rates on Global Dispersant Stockpile and Subsea Well Intervention Services, please contact [subseaservices@oilspillresponse.com](mailto:subseaservices@oilspillresponse.com)

# GENERAL TERMS AND CONDITIONS FOR EQUIPMENT USE IN RESPONSE INCIDENTS

## DEFINITIONS

**Affiliate:** Means any company, which is owned by, which owns, or is under common ownership with a company. For this purpose “ownership” may be direct or indirect; direct ownership being through holding fifty per cent (50%) or more of the shares carrying rights to vote at a general meeting of the company (or its equivalent) or holding ordinary shares carrying a majority of votes at a general meeting (or its equivalent) of the company and indirect ownership being through a series of companies each being directly owned by one or (by aggregate shareholdings) more of the previous companies in the series.

**Base:** Means the Company base at Southampton (UK), Bahrain, Singapore or Fort Lauderdale (USA).

**Company:** Means Oil Spill Response Limited including any of its Affiliates.

**Daily “In Use”:** Means any period during which equipment is in use and not in transit or on standby. Once “In Use” the equipment will continue to be charged at the daily “In Use” rate until it is returned to the specified Base.

**Daily “On Standby”:** Means any period during which the equipment is in transit or on standby.

**Length of day (equipment):** Means in any one day where equipment is part of the time “In Use” and part of the time “On Standby” then in respect of that day the higher rate shall apply. The length of day with respect to equipment is a 24 hour period.

**Length of working day (personnel):** Means 10 hours (the Company promotes safe working practices and must ensure the safety and welfare of its staff particularly when operating in the high levels of activity of an oil spill incident. The working day is therefore limited to 10 hours.) Should extended hours become a necessity, the Company’s management will endeavour to ensure that the appropriate numbers of staff are deployed to permit an effective shift system to be operated and will advise the client accordingly.

**Period of hire:** Means the time from which the equipment leaves the Base until it is returned to the same base or to any alternative location as may be agreed by Company.

## TERMS AND CONDITIONS

**Administration fee:** A 15% fee will be charged to Non-members on all third party costs including but not limited to consumables, chemical dispersant replacement cost, aviation charter costs and direct operating costs for aviation activities. Where applicable, an administration fee of 15% will be charged

to Members in the event that third party contractors are used in the event of an incident.

**Aircraft charter:** In the event that a chartered aircraft is required this can be organised through a dedicated broker. Payment from Members is due within 15 days. Non-members may be required to pay in advance and rates will be subject to a 15% administration fee.

**Aircraft Insurance:** All aircraft contracted by the Company for use in aerial surveillance and dispersant spraying activities are insured by the service provider. However, if any additional premium is payable due to the nature of a specific operation this will be recharged to the mobilising party.

**Cap on hire charges (Members only):** Hire charges will be capped at twice the replacement cost of the equipment. However, the rehabilitation, repair, and maintenance costs will continue to be charged in the normal way at the end of the period of hire. Once the capped value has been reached there may be an option to purchase the equipment at replacement cost, terms for which will be agreed at the time.

**Chemical Dispersant:** Chemical dispersant will be charged at replacement purchase price plus all procurement costs. Non-members will be charged a fee of £2,500 for access to dispersant stocks plus a 15% administration fee. The hire of dispersant in support of projects is only available to Members.

**Consumables:** All consumables will be charged at replacement cost. Non-members will also be charged a 15% administration fee.

**Deployment of Equipment:** All equipment supplied by the Company will be accompanied by an appropriate number of Company personnel for the duration of its deployment.

**Hercules and Boeing 727 Aircraft:** The aircraft are available for both dispersant spraying and cargo operations. The quoted rates apply in respect of ‘normal’ response operations where the aircraft are deployed and utilised in response operations for up to a maximum of 10 days. All direct costs will be recharged to the mobilising party and an additional administration fee of 15% will be levied on Non-members.

Daily charges for non flying standby periods of greater than 10 days duration where the aircraft flies on average for less than 2 hours during the period will be charged at \$17,000 per day and will require special approval. In the event of a prolonged deployment, the mobilising party must pay for sufficient flying hours and direct operating costs to

ensure crew currency and aircraft reliability are maintained. In addition, the mobilising party may be charged if a replacement aircraft is required to cover other operational/contractual commitments which are reliant on the availability of the aircraft. This option is only available to Members.

**Oil Spill Modelling:** Fees for oil spill modelling are based on the assumption that the Company is provided with all necessary maps and relevant information (including but not limited to weather, currents, etc) by the client on a timely basis.

**Invoicing:** Invoices will be issued weekly.

**Payment:** The Company shall not be deemed to have received payment until the correct sums are credited for value to Company’s nominated account.

The Company reserves the right to request payment of funds in advance, at a level to be determined, on a case-by-case basis in the event of a mobilisation.

Late payment charges will be levied on amounts not received within 30 days (or agreed terms) of sending Company’s invoice. Payments still outstanding after 30 days shall bear interest at 3% above the HSBC Bank plc, London base rate current from time to time during the period in question until payment is received.

**Rates:** The rates contained in this Scale of Fees apply solely to response incidents. Rates for all other services are available on request.

**Rehabilitation of equipment:** The costs of cleaning and rehabilitating the equipment will be invoiced following completion of the rehabilitation and will include all materials, services and manpower costs.

**Taxation:** All rates are shown are net of all taxes including, but not limited to, withholding tax and royalties. If any deduction or withholding in respect of tax or otherwise is required by law to be made from any payment the invoice will be revised accordingly so that, after such deduction or withholding is made, the payment received is for the same amount as it would have been in the absence of any requirement to make such a reduction or withholding.

## DISCLAIMER

The above Terms and Conditions are provided for reference purposes only and are not comprehensive. For a copy of the full Terms and Conditions please refer to the relevant contract for Members or Non-members.
