

On-Scene Commander - Asia Pacific (IMO Level 2 Equivalent)

Develop both your tactical and strategic skills in spill response management, allowing you to make effective and efficient decisions to lead a tactical response team with our flagship training course especially for the Asia-Pacific region.

This course based around theoretical training provides a comprehensive overview of oil spill response whilst also developing individuals to On-Scene Commander Level. You'll develop a fundamental understanding of the use of different response techniques and strategies, in addition to gaining an appreciation of all aspects of oil spill response. This course aims in placing theory into practice with table-top exercises to affirm learning. This is an IMO Level 2 standard course that is certified with an OSRL Certification of Completion.

What will I learn?

This course provides Incident Management Team (IMT) members and Field Supervisors with the theory to effectively manage oil spill response operations, covering the roles and responsibilities for tactical management of response teams. This course will give you the knowledge and understanding in the following areas:

- Overview of oil spill response including the causes and fates of oil spills and environmental impacts
- Spill assessment and quantification along with identifying the best response techniques and strategies
- Importance of media relations during response operations
- Spill termination and post-spill monitoring
- Claims and compensations and liabilities that sit with responsible parties.

Course Structure

Classroom	100%
Presentations	50%
Group Tasks	50%
